

Welcome to Antwerp-Central station

A world-class monument

Antwerp Central station is a true green mobility hub. Train, tram, bus or bike, all options are available to take you either to the city centre or to Paris in no time! You can leave your car behind in one of the station's two underground car parks. Cyclists can store their two-wheeler safely in a large, monitored bicycle shed.

If you just want to do some quick shopping, there's no need to rush into the city. You can pick up your groceries at the station supermarket, buy a snack, withdraw cash and get yourself some nice chocolates or flowers or enjoy a cup of coffee. The varied offer ranges from a pharmacy to a tourist information point. The many jewellery shops also illustrate the role of the area around the station as the heart of the diamond district.

Antwerp-Central is vibrant with life. The unique architecture of the building only emphasizes this. Indeed, with its 75 m high dome, the historical railway cathedral constitutes an important point of reference in the city. Over the past few years, the impressive concourse and the station canopy have been renovated and extended with underground tracks.

In 2009 *Newsweek* ranked Antwerp Central station as the fourth most beautiful station in the World. In 2011, the station won the Europa Nostra Award, a prestigious EU award for cultural heritage.
